Re: MB Docket No. 02-144, MM Docket No. 92-266, MM Docket No. 93-215,
CS Docket No. 94-28, CS Docket No. 96-157

Dear Ms. Dortch:

On April 28, 2004, Dan Brenner and Diane Burstein of the National Cable & Telecommunications Association met with William Johnson, John Norton, Mary Beth Murphy, Katie Costello, Peggy Green and Kenneth Lewis from the FCC's Media Bureau.

Consistent with our written comments in the above-captioned proceeding, NCTA argued that the Commission: (1) should permit cable operators to maintain their prevailing rate if local franchising authorities ("LFAs") are newly-certified, subject to LFA review of the system's most recent rate increase; (2) should provide cable operators the option of pricing digital boxes free from rate regulation; and (3) should continue to rely on its per-channel adjustment factor for calculating rate changes when channels are added or deleted to the basic tier, rather than modifying its rules to reflect bandwidth usage.

Respectfully submitted,

/s/ Diane Burstein
